DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Isaacs et al. (US 4,881,545).

Isaacs et al. discloses a surgical device comprising: a frame (staple entire structure) having first and second ends (handle and anvil sections); a body portion (30) defining a stationary handle (20) secured to the end frame (handle section); a trigger (110) pivotably secured to the body; a head portion (40) including an anvil assembly (54) having a plurality of staple forming pockets (fastener retaining apertures) (col. 4, line 10); a cartridge assembly (50); a stiffener plate (44a & 44b) capable of providing added strength to the anvil assembly to permit reduction in size of the head portion.

Conclusion

Refer to attachment for notice of references cited and recommended for consideration based on their disclosure of limitations of the claimed invention.
